

# KASPAR

*Artist in search of purity in melody, harmony and lyrics*

---

## *Biography*

Kaspar (Born: Wiebe Kaspers, Jorwert, 1990) is a musician who's searching for a challenge in arranging, writing, playing and singing songs. Together with carefully selected musicians, he wants to enrapture the listener.

His pure voice and the content he puts into his songs guarantee an authentic, traditional and artistic result. As a singer he dares to be vulnerable to his audience, and to himself. With a curiosity about what's going on in the world, between people and in nature, Kaspar holds up a mirror to himself and makes his own choices.

Kaspar brings new songs with beautiful rhymes, deep content, sung in a poetic way to melodic music. Mysterious in the background, magical realism in the front.

KASPAR

## Press

'(...) It was striking that it will soon be released as a single Allright, which is short, light and almost cheerful. A catchy song with a refined melody, coloured with harmonica.'

[Friesch Dagblad \(October 3, 2022\)](#)

'Making beautiful music close to his audience, that is how Kaspar prefers to play. In addition, the composition of musicians can be different every time. „With every song and every performance I think about who I can perform it best with. Sometimes that is with strings, with guitars, or with drums. Recently I performed a living room concert with just one violinist and me. That was so beautifully intimate, the music we made also brought tears to my eyes.'

[Leeuwarder Courant \(October 17, 2022\)](#)
